Technical Operations & Studio Support Specialist

Professional Summary

Detail-oriented technical professional with a strong foundation in IT support, multimedia equipment handling, and facility operations. Proven track record in rapid troubleshooting, device management, and ensuring zero-downtime environments. Highly trusted to manage daily operations, oversee shared assets, and coordinate with teams. Adept at bridging technical IT skills with digital content operations, podcast studio management, and live event broadcasting to support seamless studio workflows.

Education

Universitas Amikom Yogyakarta

Bachelor of Computer Science (S.Kom), Faculty of Information Systems

Graduated in 3.5 years

Final Project: Development of a School Profile Website Using WordPress as an Information Medium at SMA Sains Wahid Hasyim Yogyakarta

Work Experience

1. Solutionlabs Group Indonesia

- Technical Support | April 2026 – August 2026
 - Provide rapid-response technical troubleshooting and support, ensuring maximum uptime for user workstations, software, and connected peripherals.
 - Manage and resolve technical incidents systematically within SLA-driven environments, addressing hardware, software, and network connectivity issues.
 - Maintain precise documentation of service requests, equipment status, and troubleshooting steps to optimize future support operations.

2. Yayasan Wahid Hasyim Yogyakarta (SMA Sains & MA Darul Qur'an)

- Operations & Facility Supervisor (Head of Dormitory) | February 2025 – March 2026
 - Oversaw daily operational activities and facility management for an environment of 100+ residents, ensuring strict adherence to schedules and operational rules.
 - Entrusted with the safeguarding, maintenance, and monitoring of shared facilities and institutional assets, ensuring equipment was properly stored and maintained.
 - Developed and implemented Standard Operating Procedures (SOPs) to streamline workflows, improve discipline, and ensure operational consistency across 8 divisions.

- *Media & Digital Administration Coordinator* | August 2021 – February 2025
 - Served as the primary event photographer and videographer, successfully documenting large-scale graduation ceremonies (1,000+ attendees) for 4 consecutive years and producing institutional profile videos.
 - Managed podcast studio operations, including the setup of cameras, lighting, and clip-on wireless microphones for continuous video production and broadcasting.
 - Handled live-streaming and audio-visual recording for institutional events, proactively troubleshooting technical issues to ensure zero downtime.
 - Maintained strict inventory control and care for all multimedia equipment, ensuring devices were cleaned, organized, and securely stored after each use.
